Connect to any Cisco technology or equipment

No matter the Cisco technology or equipment, we have the expertise to seamlessly deliver service to it.

We also offer flexible connectivity options to fit your needs and budget:

- ➔ Over the Top—reliable voice at the best cost
- ➔ Private Connection—custom-built dedicated connectivity
- ➔ MPLS—add us as a node to get the most out of your investment

Experience cloud communications with Webex Teams powered by Atmosphere®

As the first PSTN provider for Webex Teams, our Atmosphere® Voice Services are seamlessly integrated for easy turn up of service, fast voice provisioning, and robust connectivity across the public switched telephone network (PSTN).

- Cloud-based phone & PBX
- Complete calling plan
- Centralized management
- Speedy turn-ups
- Secure & reliable
- Flexible & scalable

Start your move to Cisco cloud communications with hybrid deployments

If you aren't quite ready to make the leap into cloud communications, let us help you make the transition with a hybrid deployment via Cisco Expressway and Webex Hybrid Services. Connect your on-premise solution such as Cisco Unified Communications, Business Edition 6000 and 7000 with our Atmosphere® Platform and Webex Teams. Protect current investments while saving an average of 40% over legacy telecom, improving resiliency, gaining for flexibility and scalability, and starting on a seamless transition path to a full cloud solution.

Add on enhanced functionality for a more complete communications solution

With Atmosphere®, you can build a more complete communications solution by adding on other Atmosphere® functionality to Webex Teams. Atmosphere® Multi-Channel IVR lets you intelligently streamline inbound communications management, and enhance your customer interactions through automated call and messaging flows. Atmosphere® Messaging for Webex Teams lets you send and receive SMS messages through your Webex Teams client, providing another method of internal and external communications.

About IntelPeer

IntelPeer delivers ready to use, cloud-based, multi-channel business communications you can build on with voice and messaging applications via multiple connection options, backed by an award-winning support team and disaster avoidance solutions. Partners and companies of any size can leverage our innovative solutions to create more effective customer interactions and improve business processes. Visit www.intelepeer.com to learn more.
